

HASNAIN SAEED

Software Engineer — Frontend Focus / Full-Stack Development

hasnain4@gmail.com | +92 312 2023432 | [linkedin.com/in/muhammadhasnainsaeed](https://www.linkedin.com/in/muhammadhasnainsaeed) | github.com/muhammadhasnainsaeed | hasnainsaeed.vercel.app | Karachi, Pakistan

PROFILE

Frontend-focused engineer with 4+ years delivering scalable SaaS platforms and subscription systems using React, Next.js, Vue, and Nuxt — with close collaboration with backend teams on API integration, auth, and payments. Expanded into full-stack development by independently building and shipping AI-powered products end-to-end.

EXPERIENCE

Software Engineer (Sr. Frontend) — Absolutely Digital

Dec 2023 – Nov 2025

- Designed and built a dynamic landing page system in Nuxt.js — new landing pages go live automatically by adding a domain, without manual deployment, powering multiple SaaS and subscription products
- Built scalable SaaS and subscription platforms using React, Next.js, Vue (TypeScript), working closely with backend engineers on API integration
- Integrated Stripe billing, authentication, and payment systems on the frontend
- Improved performance and SEO by 35%+ (Lighthouse) through optimization and modular architecture
- Led GSAP-based animation and interaction work on Victus, resolving cross-team frontend issues
- Built TrainerFlix and TipTube frontend platforms end-to-end from initial architecture to launch, and resolved key frontend issues across ZodiacNest
- Optimized state management (Zustand, Pinia) and collaborated with backend/DevOps teams on CI/CD pipelines and Docker-based deployments on AWS

Software Engineer (Frontend Dev / Lead) — Alnafi E-learning

Apr 2022 – Dec 2023

- Led frontend architecture for SaaS and e-learning platforms serving 1,000+ active users, built with Nuxt.js and Tailwind across Alnafi's product ecosystem (Alnafi, Alnafi Cloud, Academy System, Affiliate, Albaser Dashboard)
- Optimized site performance to a 99 Lighthouse score, with 100% on SEO, Accessibility, and Best Practices — collaborating with the marketing team on Google Tag Manager, Hotjar, and Sentry integration
- Managed and maintained 10+ frontend projects, optimizing Strapi CMS content architecture and API responses for faster data delivery
- Integrated Stripe payments, AWS services, and auth systems on the frontend — progressing from Frontend Developer to a leadership role

KEY PROJECTS

Rapid.ai — AI-Powered Platform

2025

- End-to-end full-stack build — React frontend, Node.js/Express backend, NeonDB — powering AI image generation, resume review, and background removal tools

AI Voice Interpreter — Real-Time Voice Translation

2025

- End-to-end full-stack build — Electron/React frontend, Node.js backend integrating OpenAI Whisper for real-time multilingual transcription

Also shipped: [Trainerflix](#), [Tiptube](#), [Victus](#), [ZodiacNest](#), [Alnafi](#), [Alnafi Academy](#), [Alnafi Cloud](#) — additional frontend-led SaaS platforms integrating Laravel/Django backends.

SKILLS

Frontend: React, Next.js, Vue.js, Nuxt.js, TypeScript, JavaScript, Tailwind CSS, GSAP, Redux, Zustand, Pinia

Backend: Node.js, Express.js, REST APIs (integration & collaboration)

Database: PostgreSQL, MongoDB, Redis, Supabase

Testing: Jest, Vitest, Playwright

DevOps & Cloud: Docker, AWS, Vercel, Netlify, Git, CI/CD (collaborative)

Currently Learning: Go, Rust, System Design

EDUCATION

Bachelor of Science in Computer Science

2019 – 2023

Federal Urdu University of Arts, Science & Technology, Karachi | GPA: 3.4

CERTIFICATIONS

Meta, IBM, and other industry-recognized certifications across frontend development, backend fundamentals, cloud, and agile practices — full list at hasnainsaeed.vercel.app/credentials
